

Vision to Value. **Faster.**

Accelerate Your ERP Transformation with Confidence

Modernize SAP. Minimize Risk. Maximize Business Value.

SAP ECC end-of-maintenance is no longer a future concern, it's a business-critical deadline. Organizations must modernize their ERP landscape while ensuring continuity, compliance, and operational resilience.

Prolifics helps enterprises migrate SAP ECC to SAP S/4HANA on Microsoft Azure through a proven, structured, and low-risk transformation approach backed by deep SAP and Azure expertise. With 55+ HANA migration projects, 150+ SAP clients, and 400+ SAP-certified professionals, Prolifics delivers enterprise-scale SAP transformations with speed, precision, and business continuity.

Why SAP on Azure?

Migrating SAP workloads to Microsoft Azure provides organizations with a secure, scalable, and AI-ready cloud foundation.

Key Benefits:

- ✓ Enterprise-grade security & compliance
- ✓ Scalable cloud infrastructure
- ✓ Improved business agility
- ✓ Reduced infrastructure costs
- ✓ High availability & disaster recovery
- ✓ Seamless integration with Microsoft ecosystem
- ✓ AI, analytics & automation enablement
- ✓ Support for RISE with SAP on Azure

Azure empowers organizations to modernize ERP while unlocking innovation through advanced analytics, automation, and AI-driven insights.

Three Proven Migration Paths

Prolifics delivers SAP S/4HANA migrations across all major transformation models:

Migration Approach	Best For	Business Outcome
Greenfield	Organizations seeking complete transformation	Build a clean S/4HANA environment using SAP best practices
Brownfield	Businesses prioritizing speed & continuity	Convert existing ECC systems while retaining configurations & data
Bluefield	Enterprises needing selective transformation	Migrate critical business data while modernizing the platform

1. Assessment & Roadmap

We begin with a comprehensive analysis of your SAP landscape, including:

- System complexity
- Custom code assessment
- Data quality analysis
- Integration dependencies
- Azure sizing requirements
- Migration risk evaluation

Deliverables

- ✓ Migration roadmap
- ✓ Effort & cost estimates
- ✓ Risk register
- ✓ Recommended migration approach

2. Value Engineering

Beyond technical migration, Prolifics identifies opportunities to:

- Improve business processes
- Enable AI-driven automation
- Optimize operational efficiency
- Modernize integrations
- Enhance analytics capabilities

3. Migration & Conversion

Using SAP Activate methodology, Prolifics manages:

- SAP ECC to S/4HANA conversion
- Data migration (LTMC/BODS/LSMW)
- Custom code remediation
- Azure infrastructure deployment
- System integration & validation
- Governance & compliance

4. Integration & Extension

Modernize your SAP ecosystem with:

- SAP BTP integration services
- API-led connectivity
- CPI/PI/PO migration
- Azure-native integrations
- Custom Fiori & ABAP extensions
- AI & analytics enablement

5. Automated Testing with Effecta

Reduce Migration Risk by up to 80%
Prolifics' proprietary Effecta platform automates:

- End-to-end business process validation
- Regression testing
- iDoc validation
- Data & document comparison
- Impact analysis

Deliverables

- ✓ Faster testing cycles
- ✓ Reduced manual effort
- ✓ Improved defect detection
- ✓ Accelerated go-live readiness

6. Cutover & Hypercare

Our structured cutover approach minimizes operational disruption through:

- Controlled deployment sequencing
- Real-time monitoring
- Intensive post-go-live support
- Performance stabilization
- Rapid issue resolution

Business Outcomes

Organizations partnering with Prolifics achieve:

Strategic Benefits

- ✓ Eliminate ECC end-of-maintenance risk
- ✓ Establish a scalable, AI-ready ERP platform
- ✓ Improve operational efficiency
- ✓ Enable future innovation on Azure
- ✓ Reduce total cost of ownership
- ✓ Accelerate digital transformation initiatives

Operational Benefits

- ✓ Faster migration timelines
- ✓ Reduced business disruption
- ✓ Increased testing coverage
- ✓ Improved system performance
- ✓ Enhanced governance & compliance

Why Prolifics?

Proven SAP & Azure Expertise

55+

SAP HANA migrations completed

75+

end-to-end SAP implementations

150+

SAP clients

55+

industry verticals supported

400+

SAP-certified consultants

Microsoft Azure Partnership

Prolifics brings deep Azure infrastructure expertise with a strong Microsoft partnership designed specifically for SAP on Azure workloads.

Industry-Specific Experience

Extensive experience across:

Manufacturing

Healthcare & Pharma

Retail

BFSI

Chemicals

Consumer Products

Proprietary Testing Advantage

Effecta accelerates testing, reduces migration risk, and improves overall delivery confidence.

Who Should Consider This Offering?

This solution is ideal for:

- Organizations running SAP ECC nearing end-of-support
- Enterprises planning SAP cloud transformation
- Businesses pursuing RISE with SAP on Azure
- IT leaders seeking modernization without disruption

Start with Clarity

Every successful SAP transformation begins with a structured roadmap.

Assessment & Roadmap Engagement

A fixed-scope engagement designed to provide:

- SAP landscape evaluation
- Migration strategy recommendation
- Costed implementation roadmap
- Business case alignment
- Risk mitigation plan

Ready to Transform Your SAP Landscape?

Engage Prolifics for a fixed-scope Assessment & Roadmap engagement to identify your optimal SAP S/4HANA migration strategy and accelerate your cloud transformation journey.
